Pod

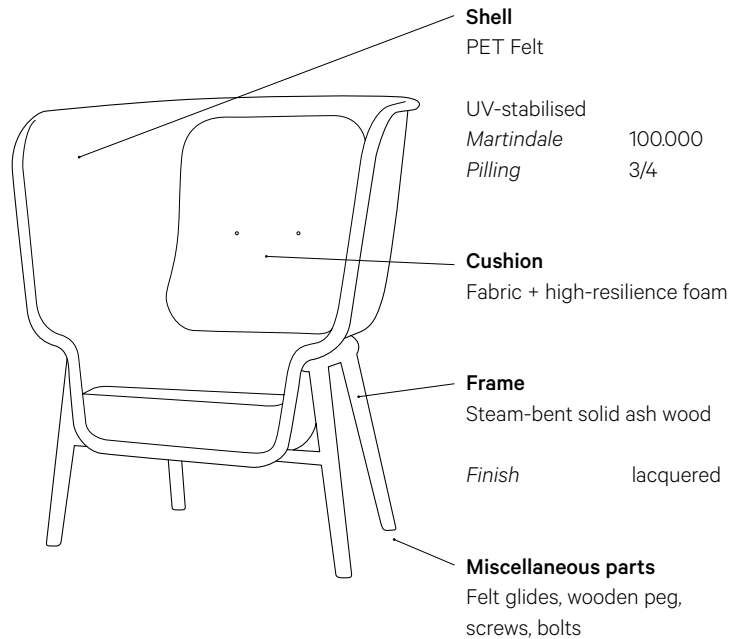

PET Felt Privacy Chair

Pod is a privacy chair for commercial interiors. Its shell is made from sustainable PET Felt material, supported by the solid ash wood frame. Pod solves privacy issues in breakout areas, hotel lobbies and lounge zones. The chair comes in eleven unique PET Felt blends. The design can be further customised with bespoke frame colour and cushion upholstery.

Designed by **Benjamin Hubert**

Carton box 100 x 86 x 136 cm

Packed 1 per box

Sustainability goals at De Vorm

We strive to do more with less when creating a comfortable living and working environment. To fulfil this purpose, we are constantly looking for sustainable materials, local suppliers and partners sharing the same values. Ensuring that our products are recycled, durable and recyclable after a long lifespan.

PET Felt technology

PET Felt is made from recycled PET bottles. Cut into smaller flakes, plastic is turned into thin fibres that are intertwined together to form a layer of felt. Further, it is pressed into the shape of a final product with the heat. As a result, PET Felt material is soft to touch and sturdy enough to be used for chair shells and room dividers. PET Felt is UV-stabilised and offers sound-dampening properties due to its open-cellular structure.
